

Education and AGM

Ice Addiction: Myths and facts for GPs

Overview

'Treating crystal methamphetamine use in general practice doesn't necessarily mean managing violent or psychotic patients'.

GPs and Practice Nurses are encouraged to attend this presentation to:

- Identify signs of methamphetamine use, and the varying profile of users.
- Know and recognise the physical and mental health effects of ice.
- Access local referral pathways for alcohol and other drug treatment services.
- Access available resources for patients and health professionals.

Speaker

Dr Karen Fisher, Clinical Director, Drug and Alcohol Services, Nepean Hospital

Nepean GP Network Annual General Meeting

The presentation will be followed by a brief AGM of the Nepean GP Network.
